

Vitaljuicer

Your fresh juice
"on the spot" by

*Soon on your counter
The "espresso" fruits & vegetables juicer*

This new centrifugal juice extractor simplifies the process of producing fresh juice. Carrots and apples are transformed from vegetables and fruits to vegetable and fruit juice instantly! Now your customers can enjoy a wide variety of fruit and vegetable juices "squeezed to order".

The VITALJUICER IS

**SMALL AND TOUGH
FAST AND RELIABLE
HIGHLY EFFICIENT
EASY TO CLEAN
EASY TO PLACE**

The Vitaljuicer features an all new electronic safety system designed to protect both the operator and the machine. In addition, its innovative design allows the operator to both remove the juicing basket and lock it back in place **WITHOUT USING A SEPARATE FASTENING TOOL**.

This design feature makes it particularly easy to clear or clean the basket when switching from carrot to tomato, celery, beet, cucumber, melon, pineapple, grape, apple, or pear juicing.

Breakthrough technology for the juice bar operator and a whole new way to serve fruit and vegetable juice for anyone who operates a food establishment. Serve your customers the best, fruit and vegetable juice freshly squeezed and loaded with vitamins and minerals.
